

Botzees - Copywriting Coding Train

Summary of the product

Botzees Toddler - Coding Train Set is the smartest way to introduce early coding concepts to preschoolers aged 2+ years. An upgrade from the regular train sets, with the 11 colorful and beautiful themed playsets that can be built, Botzees Toddler is highly versatile, allowing children to make connections and intuitively explore early coding concepts, such as sequencing, looping, and conditional coding while developing problem-solving skills, critical thinking, collaboration, and social and emotional skills.

Details:

[Overview]

Botzees Toddler - Coding Train Set allows children to use sensor blocks to control coding train actions, identify scenes, and interact with sound effects. The set comes in 11 themed scenes with different levels of difficulty to build advanced gameplay. Action bricks are also provided in different colors that represent different commands. Botzees Toddler is conducive to the development of hand-eye coordination ability, stimulating children's creativity and interest in exploration.

[What's Included]

Botzees Toddler - Coding Train includes 25 tracks over 9.8 ft in total length, 1 push go car, 106 large colorful elastic blocks with fun shapes, 3 action figures, 5 action bricks to control the car, 1 story book to guide the play, 1 sticker sheet to customize the tracks, and 1 free 3D building app that provides step by step instructions in making fun creations. 2 AA Batteries are not included in the set.

[Learning Benefits]

Botzees Toddler - Coding Train Set sparks creativity and imagination in children through play-based activities. Living in an increasingly digitized world where Coding is the new literacy, it cultivates children's early programming, logical thinking, and problem-solving skills that enable them to learn relevant and competitive skills while developing a problem-solving mindset from an early age.

[Why Botzees Blocks]

An award winning blocks brand, all the materials used in Botzees Toddler - Coding Train Set are BPA free. The block system is made by better materials that come in rounded edges, making it unique and perfect size for smaller hands. The blocks are also designed with a building joint system that is movable, making it easy to take apart- encouraging kids to build more than one creation. To top it all off, a free app with 3D zoomable building script is also included in the set that inspires self-determination and an overall fun building experience.
